How to use the manuals:

- Manuals and guides are meant for all staff, not just tech staff.
- The main product manuals are divided into two parts: staff interface and public interface.
- To find a topic quickly, open the appropriate manual listed below. Use the FIND option (located under Edit on the Adobe Acrobat toolbar). Type in the topic/word you're looking for and click Find. A list of matches will appear on the right side of your screen.
- Create "cheat sheets" for yourself by copying and pasting information from the manual. See the "Templates" link for examples from Sacramento (CA) Public Library.
- In some cases, manuals may not be available as new versions are pending.
